Subject: Results of the 1% manual tally for the June 8, 2010 Gubernatorial Primary Election

In compliance with the 1% manual tally requirements of the California Elections Code section 15360 the manual tally was completed on June 23, 2010.

Fifteen precincts were selected at random by a member of the public. Seven "add-on" precincts were selected at random by a member of the public to include in the tally those jurisdictions not represented in the original 15 precincts.

Tabulation system results include ballots cast by mail, excluding provisional, unreadable, and/or damaged ballots.

The number of ballots tabulated and the number of votes cast were manually tallied for the selected precincts and compared to the system-generated precinct report.

\* Sequence #292: Manual tally saw one less ballot and 34 less votes cast than system report.

(-) differences – Manual ballot count less than computer count occurs when ballot jams in the scanner and the operator reran the ballot in error. Ballots are rerun to confirm manual tally. New system report matched manual tally of ballots and votes cast.
